Welcome Aboard Fresno Area Express!

WE ARE FRESNO'S FAST & EFFICIENT TRANSIT SYSTEM... offering 17 fixed-route bus lines and Handy Ride Paratransit Service, all designed to help you get wherever you need to go! We take pride in serving the greater Fresno Metropolitan Area with high quality transit service - with a modern fleet of over 100 buses and a dedicated team of transit professionals. Fresno Area Express is operated by the City of Fresno as a public service to all the citizens and visitors of Fresno.

FIND THE CORRECT BUS ROUTE

- The first step in riding the bus is finding the correct bus route (or routes) to reach your destination. Use the FAX System Map to determine which route is best. Remember that you can transfer from one route to another to reach your destination.

FIND OUT WHAT TIME THE BUS WILL ARRIVE AT YOUR STOP - Use a copy of the FAX Schedule Guide to find out what time the bus serves the route you are planning to use. FAX service hours are Monday - Friday 5:30 a.m. to 10:00 p.m., and weekends 6:30 a.m. to 7:00 p.m. Late night service is available on select routes until approximately 12:00 a.m. Monday through Saturday (see schedule guide for details).

CATCHING THE BUS -

Please remember that buses will only stop at designated stops. Designated stops have FAX bus stop signs that show which route is served at that stop. If you are seated at a shelter, or on a bus bench, please stand up, if you are physically able, to let the driver know you wish to board. You must be present at the bus stop when the bus arrives. If you are boarding with a stroller, please have the item folded and ready.

PAYING YOUR FARE - Cash, tickets, passes and transfers can be used on all buses. If you use cash, exact fare is recommended because the fareboxes do not make change. Instead, you will receive a change card that can be used on future rides. Change cards cannot be redeemed for cash and will not be issued for values less than 25¢. Please have your fare ready when the bus arrives. The farebox accepts \$1, \$5, \$10 and \$20 bills. Please note: Every bus station along Route 1, The Q, includes a ticket vending machine; FAX encourages passengers to prepay on Route 1 to speed up the boarding process and keep the bus moving on time.

LEAVING THE BUS - Be alert for your destination. To signal the operator to stop pull the cord above the windows. Pull the cord a minimum of one block prior to your desired bus stop. Wait until the bus comes to a complete stop before leaving your seat. Please remember that buses will stop only at designated bus stops. Leave through the rear doors if possible to allow new passengers to board.

TRANSFERS - Transfers are free with a full paid fare, and allow you to transfer to two additional FAX buses in order to complete your one-way trip. Bus transfers can be made only where routes intersect and are not valid for layovers or return trips. Transfers must be requested at the time of boarding and remain valid 90 minutes from the time issued. When transferring between Clovis Stageline and FAX, only one transfer will be allowed.

LOST & FOUND - To inquire about lost items call **621-RIDE**. If possible, let us know the date and description of the item so that we may better assist you in locating the lost item(s).

NOTICE TO RIDERS WHO HAVE MEDICARE CARDS - Riders who possess a Medicare Card and proper identification are eligible for a 60¢ one way fare at all times.

ACCESSIBILITY -

All FAX buses have entry ramps for easy access by passengers who either use wheelchairs or mobility devices, or have difficulty climbing steps. Walkers/Rollators (4-wheeled walkers with seats) must be folded and placed out of the aisles.

Walker and Rollator users must always sit in a regular bus seat.

Walkers and Rollators cannot be used as a seat while riding the bus and may not be secured in the wheelchair securement area.

HANDY RIDE -

Handy Ride is a FAX service designed to assist eligible persons with disabilities who cannot functionally use the FAX city bus system. Handy Ride is a curb-to-curb service, providing service from any origin to any destination throughout the service area, for any trip purpose. As a shared ride service, you may share your ride with other riders, and it is important to be at the curb at your designated pick-up time.

Service is available to those persons who, because of the nature of their disability, are unable to use the FAX Fixed-Route System.

SERVICE HOURS	DAY SCHEDULE	NIGHT SERVICE (Limited Service Area)
Monday – Friday	5:30 am – 9:30 pm	9:30 pm – 12:00 am
Saturday	6:30 am – 7:00 pm	7:00 pm – 12:00 am
Sunday	6:30 am – 7:00 pm	
RESERVATION HOURS		
Monday – Friday	8:00 am – 5:00 pm	
Saturday/Sunday	8:00 am – 5:00 pm	

Eligible persons can make an appointment by calling Handy Ride at **621-5770**. When calling in to make trip reservations, **please state your name first**. Reservation Clerks will then ask a series of questions regarding desired pick-up time, pick-up location, destination, etc., in order to schedule the requested trip. Persons who are ADA Handy Ride Certified may make reservations one to two days before the desired trip. If illness or a change in plans cause you to cancel a trip, please inform Handy Ride at least one hour before your scheduled pick-up time.

For complete information regarding Handy Ride eligibility and service contact FAX at **621-7433**.

TITLE VI -

Fresno Area Express is committed to ensuring that no individual or organization is excluded from participation in, denied the benefits of its programs, activities or services, or subject to discrimination on the basis of race, color, or national origin as afforded to them by Title VI of the Civil Rights Act of 1964, as amended. For more information please contact the Complaint Coordinator at 621-RIDE.

HOLIDAY SERVICE -

Bus service is not provided on Thanksgiving Day and Christmas Day. Other legal holidays may have reduced service. Sunday schedule service is provided on New Year's Day, Martin Luther King Jr. Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Veterans Day, the day after Thanksgiving and the day before Christmas.

RULES TO RIDE BY -

- Do not smoke aboard the bus
- Do not eat or drink aboard the bus
- Walk - do not run aboard the bus
- Keep all bus aisles clear
- Please keep seats clean and feet on the floor
- Place all trash in trash cans
- Listen to your radio only with earphones
- Animals are not allowed except in approved animal carriers (*service animals excepted*)
- No disruptive behavior or foul language
- Do not cross in front of or behind the bus
- Do not attempt to board a bus which has pulled away from the curb
- Children must be supervised at all times
- Remain seated (if seats are available) when the bus is in motion
- Hazardous materials are not allowed on buses
- Always load your bike into the rack closest to the bus

TOP 10 TIPS TO QUIT SMOKING

**Counselors from the
California Smokers'
Helpline provide
their top 10 tips to
quit for good.**

Enroll online at
www.nobutts.org

- 1. FIND A REASON TO QUIT**
Do you want to breathe easier? Be around longer for your family? Save money? Whatever gets you fired up, write it down. A strong reason can get you started. And it will help you stay quit when you're tempted to smoke.
- 2. MAKE A PLAN**
Think about what triggers you to smoke. Is it stress? Being around smokers? Alcohol? Or something else? Plan to get through those times without smoking. Keep your hands busy and your mind off cigarettes. Examples: drink water, wash the dishes, talk to a nonsmoker.
- 3. CALL 1-800-NO-BUTTS**
People who call the Helpline are twice as likely to quit for good. A trained counselor will help you make a personal plan and offer support along the way. It's free, and it works!
- 4. GET SUPPORT**
Research shows that support while quitting can really help. Talk with your family and friends about your plan to quit. Let them know what they can do to help you.
- 5. USE A QUITTING AID**
Quitting aids, like nicotine patches and gum, and other FDA-approved medications are helpful. They can cut withdrawal symptoms and increase your chance of quitting for good. Your health plan or Medi-Cal benefits may cover these products. Talk with your doctor about which quitting aids are right for you.
- 6. MAKE YOUR HOME & CAR SMOKE-FREE**
Having smoke-free areas can help you stop smoking. And your friends and family will enjoy cleaner air and a longer, happier life - with you still in it!
- 7. SET A QUIT DATE**
Choose a date when you will quit. This shows you're serious. And you're more likely to give it a try.
- 8. QUIT ON YOUR QUIT DATE**
Sounds obvious, right? But what good is a quit date unless you actually try to stop smoking? Planning is good, doing is even better.
- 9. PICTURE BEING A NONSMOKER**
After you quit, you have a choice to make. Are you a smoker who's just not smoking for now? Or are you a nonsmoker? For nonsmokers, smoking is not an option in any situation. Choose to see yourself as a nonsmoker.
- 10. KEEP TRYING**
Most people try several times before they quit for good. Slips don't have to turn into relapses - but if they do, remember each time brings you closer to your goal.

If you keep trying, you will succeed!

A Guide to Healthy Aging

Today 12 out of every 100 people in the U.S. are age 65 or older, and older adults make up the fastest growing part of our population. As we get older, we gain experiences and insights that move us forward and power our communities. Now more than ever, we need to ensure that our country is making the most of this new reality. Americans are leading longer, healthier lives and it is up to us all to figure out how to seize on this opportunity by adjusting our systems and policies. There are also things you can do as an individual to help you stay healthier as you age. The following guide can help you enjoy better health and greater independence in later life.

Find healthcare that meets your needs

Find a Geriatrics Healthcare Professional

For help finding a physician with special training in the care of older adults, call the AGS Health in Aging Foundation's free referral service at (212) 308-1414, or visit <http://www.healthinaging.org/find-a-geriatrics-healthcare-professional/>.

Centers for Medicare and Medicaid Services

Find out about the healthcare benefits available to older Americans through Medicare by visiting the Centers for Medicare and Medicaid Services website, at <http://www.medicare.gov/>.

Administration on Aging (AoA)

There may be special health and other programs in your community that are just for older adults. The federal Administration on Aging (AoA) offers a wide range of services for older adults in every state. These include mental health services, transportation, nutritional programs, senior health programs, benefits counseling, services for family caregivers, and elder abuse prevention programs. To find AoA services in your neighborhood call 800-677-1116 or visit www.eldercare.gov.

Remember, even if you feel perfectly healthy, you should still see your healthcare provider at least once a year for a checkup.

Make sure you're not making medication mistakes

- **Many older adults** take prescription medications, over-the-counter drugs, vitamins and other supplements, such as herbs or home remedies, every day. Taking lots of different pills can cause side effects and problems. It is very important that your healthcare provider, pharmacist, and others who care for you know every medication or pill you are taking.
- **Bring a list** of each and every pill, vitamin, or medicine you take with you every time you see your healthcare provider—even if you buy the pills without a prescription. Make sure you write down the dose of the pill and how many times a day you take it. Your healthcare provider should check all of your pills to make sure they are safe for you to take.
- **Always check** with your healthcare provider or your pharmacist before taking any new medicines of any kind. Take all medicines as directed, and tell your healthcare provider right away if a medication or pill seems to be causing any problems or side effects. Ask if there is any way to take care of your health problems without having to take pills or medicine. Never borrow or take any pills or medications that were meant for someone else.

Stay on top of health problems

- **Get your blood pressure checked** at least once a year. High blood pressure can cause heart disease, kidney problems, blindness, and other health problems.
- **Get a cholesterol test** at least every five years. Cholesterol is a fat in our bodies. When cholesterol levels are high, this fat can cause heart disease, strokes, and other health problems. If heart disease or diabetes runs in your family, you should have your cholesterol checked more often.
- **Get checked for diabetes**, especially if you are hungry or thirsty all the time, are overweight, or find that you have to urinate often. These problems could all be signs of diabetes.

Lower your risk of falling

- **Help keep your bones strong** by taking calcium and vitamin D every day. Most older adults absorb calcium citrate better than calcium carbonate, so read the labels on the calcium bottles carefully. Ask your healthcare provider how much calcium and vitamin D you should take.
- **If you don't exercise regularly, start.** You don't have to check with your provider before starting moderate level exercise unless you have health problems you want to discuss first. Walking is an ideal aerobic ("heart healthy") exercise; gradually increase the amount of time you spend walking, aiming for at least 20–30 minutes a day. In addition to walking, or doing other aerobic exercises like cycling, lift weights to help strengthen your muscles—and help protect your bones. Learn to do yoga or tai chi, which can improve your balance and make you less likely to fall. Many local senior centers and Y's offer exercise, yoga, and tai chi classes.
- **If you've already had a fall**, be sure to ask your healthcare provider about exercise programs in your community that include not only strength training and balance exercises but also flexibility and stretching exercises. These can also help lower your risk of falls.
- **Get an eye check-up.** Make sure your vision is good and your eyeglasses are right for you. Many falls happen when you do not see well.

Tips for Beating the Holiday Blues

Holidays are a time for celebrations, parties, and get-togethers. But sometimes the holiday season can also be a source of the blues, especially for older people, who may think about how quickly time has passed, or miss loved ones more during this time of year. Health conditions or concerns about money can also make it harder to enjoy the holidays. The AGS Health in Aging Foundation offers the following tips to help cope with the blues that may accompany the holidays.

Top 5 Tips

Get out and about

Ask family and friends for help traveling to houses or worship, parties, and other events. Invite family and friends over. Taking a brisk walk in the morning before you begin the day, or in the evening to wind down your day, is a great way to beat the blues.

Volunteer

Helping others is a great mood lifter. To volunteer, contact your local United Way (www.unitedway.org), or call places such as local schools, hospitals, museums, or places of worship to inquire about volunteer opportunities in your neighborhood.

Drink responsibly

It can be easy to overindulge around the holidays, but excessive drinking will only make you feel more depressed. One drink = 12 ounces of beer, 5 ounces of wine, or 1.5 ounces of hard liquor. The recommended limit is no more than 3 drinks on a given day or 7 drinks in a week. If you have health problems or take certain medications, you may need to drink less or not at all.

Accept your feelings

There's nothing wrong with not feeling jolly; many people experience sadness and feelings of loss during the holidays. Be kind to yourself, seek support, and even laugh at yourself every now and then.

Talk to someone

Don't underestimate the power of friends, family, mentors, and neighbors. Talk about your feelings; it can help you understand why you feel the way you do. Making a simple phone call, having a chat over coffee, or writing a nice e-mail, greeting card, or letter can brighten your mood.

Recognize Warning Signs of Depression

Holiday blues are usually temporary and mild, but depression is more serious and can linger unless you get help. Signs of depression include:

- Sadness that won't lift; loss of interest or pleasure in doing things
- Changes in appetite or weight
- Frequent crying
- Feeling restless or fidgety
- Feeling worthless, helpless, or guilty
- Decreased energy, fatigue, being "slowed down"
- Trouble concentrating
- Difficulty falling or staying asleep, or sleeping too much

Depression is treatable.

Talk to your primary healthcare provider or get other professional help if you experience five or more of these symptoms every day for two weeks. If you have recurring thoughts of death or suicide, you should get help immediately.

Help Someone with the Holiday Blues

Include them

Invite them out and to get-togethers. Take into account their needs, such as transportation or special diets.

Lend a hand

Offer to help them with cleaning, shopping, cooking, and other preparations like decorating for get-togethers in their homes.

Be a good listener

Be a supportive listener and encourage discussions about feelings and concerns. Acknowledge difficult feelings, including a sense of loss if family or friends have died or moved away. Try to put yourself in the other person's shoes to understand how they feel.

Encourage them to talk with a healthcare provider

The holidays can cause people to feel anxious and depressed. But for some, holiday tensions can lead to full-blown clinical depression. Often, older adults don't realize that they are depressed. If you suspect depression in someone you know, you may need to bring it up more than once. Let the person know that depression is a treatable medical illness and is not something to be ashamed of.

With Help Comes Hope

Natural Grief Responses

It hurts when someone dies. Allowing time to go through the natural process of grief will eventually help to ease the pain. People experience grief in many different ways. It can be emotional, physical, behavioral, cognitive and spiritual. At times, grief may feel overwhelming. It is important to remember that grief is not a problem to be solved, but rather, a process to be lived. If you or someone you know is grieving, these are some of the responses that are natural to be experiencing:

Grief can be experienced emotionally

- Sadness - a sense of sorrow · Helplessness – difficulty in performing activities of daily living
- Hopelessness – feelings that life may not be worth living
- Fearfulness – that they or someone else will die or that they are going crazy
- Anger – that the death has occurred or that the person has left them
- Guilt – over something said or not said; something they did or did not do
- Yearning- longing or aching for one more touch, conversation or moment together

Grief can be experienced physically or behaviorally

- Changes in sleep or appetite – eating or sleeping more or less than before
- Emptiness or pain – felt physically in the chest, stomach, or elsewhere in the body
- Restlessness – inability to sit still or concentrate · Lethargy – exhaustion or a lack of energy
- Tears- “grief bursts” that can occur at unexpected times
- Distracted behaviors- constant work or relocation; self-destructive or addictive behaviors
- Reminiscing- telling or retelling stories about the person who died; wanting to keep things exactly as they were; looking at pictures

Grief can be experienced cognitively

- Disbelief – feeling as though the death isn’t real or an inability to believe that it has actually happened
- Forgetfulness – not finishing what is started; absentmindedness
- Poor focus- difficulty concentrating on tasks or lack of motivation
- Questioning- asking or wondering why the death occurred

Grief can be experienced spiritually

- Searching for meaning- wondering about the purpose in life
- Altering personal beliefs- values or beliefs may be questioned or strengthened
- A sense of the person’s presence- hearing their voice, seeing their face or dreaming of the person

While there is no time line for the heart as the feelings of grief ebb and flow, it will not always be as raw, intense and constant. Giving voice to the feelings will eventually allow for hope and healing.

What to Say, What to Do: Suggested Ways to Support Someone Who is Grieving

WHAT TO SAY

INSTEAD OF SAYING

"I'm sorry" or "Everything happens for a reason" or "They're in a better place."

This can be perceived as impersonal to the griever and may contradict their beliefs. They may wonder, "What are you sorry about?" "What was the reason?" "Better without me?"

"I know how you feel" or "I understand exactly what you are going through."

Saying this may cause the person to feel that you are devaluing their individual grief. Very early on, grievers find it difficult to hear about someone else's grief experience.

"At least he/she lived a long, happy life."

This message can be misperceived because regardless of how long the person lived, there is still a death to grieve. Additionally, the phrase is overused and seems impersonal.

"You should get over it" or "You should get back to work as soon as you can."

Grievers are often given unsolicited advice. Remember that there is no "right" way to grieve. Grief is personal and will be different for each person.

TRY SAYING

"My condolences" or "I am so sorry to hear about your _____'s death"

Saying this acknowledges the person's experience and gives them an opportunity to talk about the person who died or how they are feeling.

"I can only begin to imagine what you are going through and how you are feeling."

This statement demonstrates that you are truly focusing on the griever and their unique process. Ask them what it is like for them, rather than assuming you know what they are feeling or thinking.

"I'm not sure what to say, but I am here. We can talk if you want or I can just be here with you."

Though it can sometimes feel uncomfortable to sit with someone in silence, it may be exactly what the person needs.

"How are things going for you today? I remember that today marks _____ the amount of time since he/she died."

There are a wide variety of physical, emotional, cognitive, behavioral and spiritual responses to grief. What is right for one person may not suit someone else.

WHAT TO DO

INSTEAD OF DOING THIS

Waiting for the griever to call you and ask for what they need.

When someone is grieving, it can be difficult for them to recognize what they want or need and even more difficult to ask for help.

When the griever is forgetful, confused or angry, don't take it personally.

It is natural for someone who is grieving to forget things easily or seem angry, even if this is uncharacteristic of their previous behavior.

Giving your suggestions and ideas for coping.

Sometimes the person you are trying to help needs time alone or simply to be listened to more than hearing what you think is best for them.

Not mentioning the person who died because it might upset the griever.

This is likely to make the griever feel even more alone in their grief. They often ask "Am I the only one who remembers the person who died?"

Posting immediate condolences on social media.

It is important to check in with the family of the person who died before posting on social media so as to not reveal sensitive information without their permission.

TRY DOING THIS

Take the initiative and do something for them.

Offer to come over for a visit, bring them something to eat, or take them out. If you see something that needs to be done, ask their permission and do it!

Help the griever to remember important appointments, projects, and events.

Grieving can be an all-consuming process. Compassion and patience is key. A friendly reminder phone call or an offer to accompany them to an appointment may be very welcomed.

Be attentive and respectful of the griever's feelings and wishes.

Be an active listener by supporting them where they are in their grief process. Try and be completely present and open when listening.

Mention their name and share your memories.

Whether the death was recent or long ago, mention the person. If you know that there is an important life-cycle event approaching, be aware that this may bring about a strong grief reaction. Sharing memories can bring tremendous comfort.

Take extra care in word choice and in the timing before posting condolences.

Consider what you are going to post and what you will say, as a significantly larger audience will be privy to your words. You may want to follow up your post with a phone call to the family and friends, offering comfort and a space to talk if needed.

10 Ways to Cope With The Death of a Loved One

1. Give Yourself Time

Let your heart not your head determine how you feel. Everyone grieves differently and at their own pace.

2. Share Your Thoughts

Allow yourself to think and feel thoughts and emotions when they arise. Discuss these feelings with someone you trust.

3. Take Care of Yourself

Rest, Exercise, & Diet – Grief can leave you physically exhausted. It is important to take care of yourself and give yourself the extra strength you need.

4. Journal

Be spontaneous. Write whatever seems important at the moment. Express your anger, sadness and memories. Ask yourself: What do I notice about my grief today? What is getting easier, what is still hard? How are people responding to my grief? What would I want my loved one to know? Journaling can help lessen the pain you are feeling.

5. Write a Letter to the Person Who Died

This is an opportunity to tell your loved one how much you love or miss them, or how angry, sorry or sad you are. Maybe you didn't have the chance to say goodbye or heal an old wound, always imagining that there would be plenty of time.

6. Take a Trip Down Memory Lane

Memories can help you stay connected to the person who died. You can wear something that belonged to them (i.e. a favorite hat, ring, or sweater). It can give you a sense of comfort to hold or touch something of theirs. You can place pictures and special mementos into a scrapbook or memory box. Remember, if memories are too painful right now, then it is okay to put them away for a while and return to them later when the time is right.

7. Crying

Feeling sad and crying is just one expression of grief. There is a saying, "What soap is for the body, tears are for the soul". Tears are not a sign of weakness. If you feel like crying, let your tears flow.

8. Share Your Memories

Sharing memories with others can help you maintain a sense of connection to the person who died. Retelling stories and reminiscing about days gone by can help keep your loved one an ongoing part of your day-to-day life.

9. Find Support

Grief can be very isolating. Whether you speak to someone individually or join a grief support group, reach out and find people who know how to listen. This can help normalize the myriad of feelings you are experiencing.

10. Be Gentle With Yourself

It may be 5 days, 5 months, 5 years or longer since your loved one died, and you may still experience moments of grief so intense they take you by surprise. While these grief bursts may occur from time to time, you will continue to heal. Be gentle and patient with yourself as you move forward into a full and meaningful life.

Elder Financial Abuse

CANHR is a private, nonprofit 501(c)(3) organization dedicated to improving the quality of care and the quality of life for long term care consumers in California.

How to Recognize Financial Abuse

1. Transactional Elder Financial Abuse Indicators

- Investments in unsuitable financial products, time shares, or real property
- Larger than necessary loans against home equity to finance investments
- Inappropriate banking activity such as unusually large checks or withdrawals from automated banking machines
- Signatures on checks that do not resemble the elder's signature
- Legal documents signed when the elder is physically incapable of writing
- Checks written out to "cash"
- Checks signed by the senior but filled out by someone else
- A surge of activity in accounts which have been static for years
- Expensive gifts made by the elder
- Checks or credit card transactions made out to direct mail or telemarketing promotions
- Contributions going to newly formed religious or non-profit causes

2. Possible Legal Document Abuse Indicators

- Power of attorney documents signed by the elder when the elder lacks mental capacity
- Will being made when the elder is not mentally competent
- Elder taking his or her name off of property titles
- The elder adding the name of a caretaker onto real property or money accounts in exchange for commitments of continued care, and or affection
- The elder makes changes to a Will, Trust or Transfer on Death Deed while under the care of another.

3. Life-Style Change Indicators

- Lack of amenities, such as personal grooming items or appropriate clothing, when the elder can well afford it
- Under-deployment of the elder's existing resources that could be spent on housing, personal care, housing and maintenance
- Missing cash, jewelry and personal belongings
- Decline in personal hygiene
- Isolated from family members, relatives or friends

4. Personal Relationship Abuse Indicators

- Family member interest in "conserving" the money that is being spent for of the elder's care
- Reluctance or refusal by "responsible party" to spend money on the elder's care
- New acquaintances or long-lost relatives spending time with the elder and expressing affection for the elder
- A caretaker with an inappropriate level of interest in the elder's financial matters

CANHR

650 HARRISON STREET, 2ND FLOOR • SAN FRANCISCO, CA 94107

5. Undue Influence

- California Welfare and Institutions Code section 15610.70(a) defines undue influence generally as “excessive persuasion that causes another person to act or refrain from acting by overcoming that person’s free will and results in inequity.” California Welfare and Institutions Code sections 15610.70(a)(1)-(4) go on to enumerate factors to be considered. They include:
- The victim’s vulnerability, evidence of which may include “incapacity, illness, disability, injury, age, education, impaired cognitive function, emotional distress, isolation or dependency, and whether the influencer knew or should have known of the alleged victim’s vulnerability.”
- The influencer’s apparent authority, evidence of which may include “status as a fiduciary, family member, care provider, healthcare professional, legal professional, spiritual advisor, expert, or other qualification.”
- The influencer’s conduct, evidence of which may include “(a) Controlling necessities of life, medication, the victim’s interactions with others, access to information, or sleep; (b) Use of affection, intimidation, or coercion; (c) Initiation of changes in personal or property rights, use of haste or secrecy in effecting those changes, effecting changes at inappropriate times and places, and claims of expertise in effecting changes.”
- The equity of the challenged result, evidence of which may include “the economic consequences to the victim, any divergence from the victim’s prior intent or course of conduct or dealing, the relationship of the value conveyed to the value of any services or consideration received, or the appropriateness of the change in light of the length and nature of the relationship.”

Warnings to Elders about How to Avoid Financial Abuse

When it comes to your finances, deal only with people you have known a long time and with companies or organizations with proven track records. Get everything in writing! Never accept a verbal promise or assurance if money or property is involved. Rarely will you benefit from mistakes or misunderstandings. Don’t sign anything without carefully reading it and never feel pressured to sign before you are absolutely ready to live with your decision. Honor the “three day rule” by waiting before you finalize any contract. The longer you wait, the better. Never be in a rush to get into any kind of “deal”. Take your time! Remember, it took a lifetime of work and sacrifice to build up your estate and you can lose it all with one stroke of a pen. (Refer to CANHR’s Fact Sheet - Preventing Elder Financial Abuse.)

What to Do About Known or Suspected Elder Financial Abuse?

REPORT IT!

Who Reports?

Any concerned person, and all mandated reporters.

Who are Mandated Reporters?

A person who has responsibility for the care or custody of an elder, whether or not he or she receives compensation, including administrators, supervisors, and any licensed staff or a public or private facility that provides care or services for elders; any elder or dependent adult care custodian, health practitioner, clergy member, or employee of a county adult protective services agency or a local law enforcement agency. Officers and employees of financial institutions are also mandated reporters.

What is Reported?

Mandated reporters **MUST** report actual or suspected financial abuse, which is observed, evident, or described.

When to Report?

Immediately or as soon as possible by telephone, followed by a written report within two (2) working days.

Written Reports:

Form SOC 341 must be completed and signed by the mandated reporter.

Failure to Report

Failure to report, impeding or inhibiting a report financial abuse of an elder is a misdemeanor, punishable by six months in the county jail and a fine of one thousand dollars (\$1,000).

Any mandated reporter who willfully fails to report financial abuse of an elder where that abuse results in death or great bodily injury, shall be punished by not more than one year in a county jail and a fine of five thousand dollars (\$5,000).

Banks and financial institutions are mandated reporters under Welfare and institution Code §15630.1. Failure to report can lead to a \$1,000 fine. Intentional failure to report can result in a \$5,000 fine. There is no imprisonment or private right of actions against institution that fail to report financial abuse.

Where to Report

Elder Scams

Contact the county office of the District Attorney - check the California District Attorney's Association for current addresses and phone numbers at 916-443-2017 or <http://www.cdaa.org>.

Attorney Complaints

File a complaint with the State Bar of California if you believe your attorney acted improperly, and file complaints with state (<http://www.dca.ca.gov/consumer/complaints.shtml>) and local consumer protection agencies.

Insurance Agent Complaints

Contact the State Insurance Commissioner's Office at 1-800-927-4347 or <http://www.insurance.ca.gov>. If an attorney sold the annuity, also file a complaint with the State Bar Association at 1-800-843-9053 or <http://www.calbar.ca.gov>.

Mortgage Lenders & Brokers Complaints

If you believe that a real estate professional has committed fraud having to do with your reverse mortgage, file a complaint with the **California Department of Real Estate** at: <http://www.dre.ca.gov/Consumers/FileComplaint.html>.

Also file a complaint with the **Federal Trade Commission** online or by phone, toll-free, at 1-877-FTC-HELP.

Adult Protective Services (APS) in your county by referring to California Department of Social Services Web site at <http://www.cdss.ca.gov/agedblinddisabled/PG1298.htm>.

Chapter 1 Elder Abuse

Three Indisputable Facts about Elder Abuse:

- Other than the victim's age, elder abuse is a crime which is indiscriminate in choosing who it strikes. Factors such as one's socio-economic status, gender, race, ethnicity, educational background and geographic location do not provide an impregnable barrier against its broad, horrible reach.
- Elder abuse victims often live in silent desperation, unwilling to seek assistance because they unfortunately believe their cries for help will go unanswered and they fear retaliation from their abusers. Many remain silent to protect abusive family members from the legal consequences of their crimes, or are too embarrassed to admit that they have fallen victim to predators. Others fear that no one will believe them — chalking up their allegations to the effects of old age.

Thus, it may take the courage of a caring family member, friend or caretaker to take action when the victim may be reluctant.

- With your vigilance, care and cooperation, elder abuse can be stopped and its perpetrators arrested and prosecuted. In the past four years alone, social service and law enforcement resources have expanded dramatically to meet the growing need. **HELP IS AVAILABLE.**

Remember:

**If you suspect abuse,
report it.**

Part A Physical and Emotional Elder Abuse

What is Physical and Emotional Elder Abuse?

Physical abuse includes:

- Physical assault
- Sexual assault
- Unreasonable physical constraint
- Prolonged deprivation of food or water
- Inappropriate use of a physical or chemical restraint or psychotropic medication

Neglect includes:

- Failure to assist in personal hygiene
- Failure to provide clothing and shelter
- Failure to provide medical care
- Failure to protect from health and safety hazards
- Failure to prevent malnutrition or dehydration
- Self-neglect

Emotional abuse includes:

- Verbal assaults, threats or intimidation
- Subjecting an individual to fear, isolation or serious emotional distress
- Withholding of emotional support
- Confinement

Recognizing the Warning Signs

The existence of any one or more of these does not necessarily mean that abuse has occurred. Instead, treat them as signs that diligent attention or investigation is needed.

Physical warning signs:

- Uncombed or matted hair
- Poor skin condition or hygiene
- Unkempt or dirty
- Patches of hair missing or bleeding scalp
- Any untreated medical condition
- Malnourished or dehydrated
- Foul smelling
- Torn or bloody clothing or undergarments
- Scratches, blisters, lacerations or pinch marks
- Unexplained bruises or welts
- Burns caused by scalding water, cigarettes or ropes
- Injuries that are incompatible with explanations
- Any injuries that reflect an outline of an object, for example, a belt, cord or hand

Behavioral warning signs:

- Withdrawn
- Confused or extremely forgetful
- Depressed
- Helpless or angry
- Hesitant to talk freely
- Frightened
- Secretive

Isolation warning signs:

Isolation of an elder is an insidious tool used by many abusers. Accomplished with the systematic exclusion of all real outside contact, the elder victim is eventually driven to distrust friends, doctors and even close family members. Ultimately, the elder victim becomes a pawn – manipulated into trusting only the abuser.

- Family members or caregivers have isolated the elder, restricting the elder's contact with others, including family, visitors, doctors, clergy or friends.
- Elder is not given the opportunity to speak freely or have contact with others without the caregiver being present.

REPORTING ELDER ABUSE:

- Any person who suspects that abuse of an elder has occurred should report it. When in doubt, always err on the side of caution and report.
- Abuse can continue and often escalates if there is no intervention. Known or suspected cases of abuse should be reported to the appropriate agencies or to local law enforcement.
- Intervention can often save the assets, health, dignity or even the life of an elder.

HOW TO REPORT ELDER ABUSE:

- If a known or suspected incident of elder abuse has occurred in a long-term care facility, the report should be made to the local Long-Term Care Ombudsman, the local law enforcement agency or the Bureau of Medi-Cal Fraud and Elder Abuse.*
- If abuse has occurred anywhere other than in a facility, reports should be made to the local county Adult Protective Services agency or to the local law enforcement agency.*
- The reporting person is protected from both criminal and civil liability.

**See chapter 2 (starting on page 20) for more details on how to file a report and how to contact your nearest reporting agency.*

Part C Elder Abuse in the Long-Term Care Facility

What is Long-Term Care?

More than two out of every five Americans will need long-term care at some point in their lives.

Long-term care encompasses a wide variety of settings and services designed specifically to meet the special needs of elders. Long-term care services can be found in settings such as skilled nursing facilities, residential care facilities for the elderly, intermediate care facilities and sub-acute care facilities.

Long-term care may include medical assistance, such as administering medication, ambulation assistance, or performing rehabilitation therapy. But more typically it involves assistance with the activities of daily living, including personal hygiene, dressing, bathing, meal preparation, feeding, and travel to medical services. It often includes supervision, such as protecting a person from wandering away or inadvertently injuring themselves.

These facilities are generally licensed by either the California Department of Health Services or the California Department of Social Services.

How to Choose a Long-Term Care Facility

Choosing a long-term care facility, such as a skilled nursing facility or a residential care facility, is one of the most difficult decisions one can make.

The Following are Some Suggestions for Selecting a Long-Term Care Facility:

- Plan ahead. This gives you and your family more control and can help make sure that your needs are met.
- Visit on-line resources such as those listed in Chapter 3 of this booklet. These on-line resources provide information on long-term care, including facility profiles. Facility profiles contain everything from the location, size and type of the facility and its staff to a history of a facility's violations of California and federal care laws.
- Visit the facility and meet the administrator. Ask to see the entire facility, not just one wing or floor.
- Ask to see the facility's license and the latest inspection report by either the Department of Health Services or Social Services on the facility's performance.
- Try to visit the facility more than once and at different times of the day. Make a point to visit at mealtimes, during activity periods and also at nights and on the weekends.
- Try to choose a facility that is close and convenient to those who will be visiting most often. When family and friends are able to visit frequently, they can oversee the resident's condition and actively participate in care decisions. It also enables family or friends to be able to respond quickly in times of emergencies.
- Contact your local Long-Term Care Ombudsman for information about a particular facility. Talk to friends, other residents' family members or any other individuals who may be familiar with the facility.
- Be observant. When visiting or making inquiries, pay attention to how residents are treated by staff members. Nothing is more important than the quality and quantity of facility staff.
- Don't be afraid to ask questions. Does the facility offer the religious or cultural support the elder resident needs? Does the facility provide an appropriate diet? Is the primary language of the resident spoken by the staff?

Recognizing the Warning Signs

The existence of any one or more of these indicators does not necessarily mean that abuse has occurred. Instead, treat them as signs that diligent attention or investigation is needed.

Physical warning signs:

- Call light is not functioning or is removed from resident's reach
- Development or worsening of pressure sores
- Excessive weight loss
- Unusual or recurring scratches, bruises, skin tears or welts
- Bilateral bruising (bruises on opposite sides of the body)
- "Wrap around" bruises (bruises that typically encircle the arm)
- Torn, stained or bloody underclothing
- Signs of excessive drugging
- Foul smelling, uncombed or matted hair
- Patches of hair missing or bleeding scalp
- Injuries that are incompatible with explanations
- Injuries caused by biting, cutting, pinching or twisting of limbs
- Burns caused by scalding water, cigarettes or ropes
- Any injuries that reflect an outline of an object, for example a belt, cord or hand

Behavioral warning signs:

- Withdrawn
- Confused or extremely forgetful
- Depressed
- Helpless or angry
- Hesitant to talk freely
- Frightened
- Secretive

Isolation warning signs:

Isolation of an elder is an insidious tool used by many abusers. Accomplished with the systematic exclusion of all real outside contact, the elder victim is eventually driven to distrust friends, doctors and even close family members. Ultimately, the elder victim becomes a pawn – manipulated into trusting only the abuser.

- Family members or caregivers have isolated the elder, restricting the elder's contact with others, including family, visitors, doctors, clergy or friends.
- Elder is not given the opportunity to speak freely or have contact with others without the caregiver being present.

Financial abuse warning signs:

- Disappearance of papers, checkbooks or legal documents.
- Staff assisting residents with credit card purchases or ATM withdrawals.
- Lack of amenities, such as appropriate clothing, grooming items, etc.
- Bills unpaid despite availability of adequate financial resources.
- Unusual activity in bank accounts, such as withdrawals from automatic teller machines when the person cannot get to the bank.
- Provision of services that are not necessary or requested.
- The appearance of a stranger who begins a close relationship and offers to manage the elder's finances and assets.

Residents of skilled nursing facilities are guaranteed certain rights and protections under federal and state law. Facilities are required to provide a copy of these rights to individuals upon admittance to a facility. For more information and a complete listing of residents' rights, contact the California Department of Health Services at: www.dhs.ca.gov/LNC/nhrights/

Residents'

Each resident has the right to:

Dignity & Privacy:

- Be treated with consideration, respect and dignity
- Privacy during treatment and personal care
- Receive and make phone calls in private
- Send and receive mail unopened
- Visit privately with family, friends and others

Medical Condition & Treatment:

- Be fully informed by a physician of his or her total health status
- Participate in health care planning and treatment decisions
- Choose a personal physician
- Be free from unnecessary drug treatment

Bill of Rights *(Partial list)*

Abuse & Chemical & Physical Restraints:

- Be free from verbal, sexual, physical and mental abuse, corporal punishment and involuntary seclusion
- Be free from any physical or chemical restraints - given for the purposes of discipline or staff convenience - which are not required to treat the resident's medical symptoms

Safety & Hygiene:

- Receive care from an adequate number of qualified personnel
- Receive care necessary to ensure good personal hygiene
- Receive care to prevent and reduce both bedsores and incontinence
- Receive food of the quality and quantity to meet the resident's needs in accordance with a physician's orders
- Reside in a facility which is clean, sanitary and in good repair at all times

Transfer & Discharge:

- Be transferred or discharged only if he or she has recovered to the point of not needing nursing facility care
- Be transferred or discharged only if it is necessary for the resident's welfare or if his or her needs cannot be met in the facility
- Be transferred or discharged only if the health or safety of others is endangered
- Be transferred or discharged if he or she has failed to pay for care or the facility ceases to operate

Grievances:

- Voice grievances and recommend changes in policies or services to facility staff, free from restraint, discrimination or reprisal
